TECHNICAL SKILLS

Programming Languages: C++, Python, JavaScript, TypeScript, SQL
Frontend Technologies: React.js, Next.js, HTML, CSS, Tailwind CSS, Bootstrap
Backend Technologies: Node.js, Express.js, RESTful API, Firebase
Databases: MongoDB, MySQL, PostgreSQL
Core CS: OOP, DBMS, OS, Computer Networks, DSA
Tools and Others: Git, GitHub, Vercel, Wordpress, Canva, UI/UX

EXPERIENCE

Full Stack Web Developer

Mar 2026 – Present

Complistack (EnableUser)

- Built and audited **50+ websites and browser extensions**, conducting **200+ WCAG accessibility evaluations** and compliance audits, identifying and resolving **500+ accessibility issues** to improve usability and accessibility standards conformance.
- Implemented automated testing across **20+ projects**, increasing test coverage by **35%+** and reducing production defects by **25%**.
- Optimized application performance through code refactoring, asset optimization, and caching strategies, improving page load times by **30–45%** and enhancing overall reliability, maintainability, and user experience.

Software Engineering Intern

Jun 2025 – Aug 2025

JPL IT Solutions

- Developed **50+ scalable and responsive web components** using **React.js** and **TypeScript**, following a reusable component-driven architecture that accelerated feature delivery across **15+ applications**.
- Integrated **30+ REST API endpoints** and contributed to feature development, bug fixes, and UI performance optimization for a real-time analytics dashboard, reducing response times by **25%+**.
- Resolved **100+ frontend bugs** and implemented automated testing practices, improving application stability and reducing production issues by **20%**.

PROJECTS

Interview Prep AI | *Next.js, React.js, Groq Llama API, MongoDB, Google OAuth, Tailwind CSS, YouTube API*

- Built an **AI-powered interview preparation platform** supporting **100+ role-specific interview scenarios**, leveraging the **Groq Llama API** to generate personalized questions across multiple domains and difficulty levels.
- Implemented secure **Google OAuth authentication** and designed a **MongoDB** data layer to manage **1,000+ interview records**, user profiles, progress tracking, and feedback history.
- Integrated the **YouTube API** to recommend **500+ topic-specific learning resources** and developed a fully responsive **React.js + Tailwind CSS** interface, deployed on **Vercel**.

AI WorkForge | *Next.js, React.js, Groq API, Supabase, Google OAuth, Tailwind CSS*

- Built an **AI-powered productivity suite** supporting **4+ workflows**, generating **1,000+ emails** with customizable tones using the **Groq API**.
- Implemented secure **Google OAuth** with **Supabase** to manage **500+ user sessions** and deployed a responsive **React.js + Tailwind CSS** application on **Vercel**.

EDUCATION

Bachelor of Technology in Computer Science and Engineering

2022 – 2026

GGSIPU, Delhi

CGPA: 9.0

Senior Secondary, XII (CBSE)

2022

Lady Irwin Sr. Sec. School, New Delhi

ACHIEVEMENTS AND LEADERSHIP

Demonstrated leadership, teamwork, and technical collaboration through full-stack development projects, hackathons, and hosting **35+ college events** as Team Leader of the anchoring society.
